

Pattyn Packing Lines

Polybag lining solutions to pack, weigh and tumble fill ingredients and flavours

Flo-Mech

Pattyn
PACKING LINES

Flo-Mech are the official UK sales partner for Pattyn Packing Lines. Founded in 1952, the Belgian based family company is an international leader in case lining solutions.

Pattyn Packing Lines offers fully automated, easy-to-use packaging machines and complete lines to pack, weigh and tumble fill bulk solids ranging from 5 to 30 kg.

Pattyn Packing Lines has acquired considerable know-how in the packaging of various products and therefore guarantees the very best handling of ingredients and flavours.

Maximize your productivity and flexibility

Pattyn's 30 years experience and know-how in case lining solutions with the latest technology has resulted in easy-to-use, state-of-the-art packaging machinery offering:

- High speed and production output
- Maximum flexibility
- Traceability and identification of your products
- Optimal hygiene during the complete packaging process

Pack ingredients and flavours efficiently into lined pallet containers

Are you often faced with problems when packing large volumes of finished product into pallet containers?

Pattyn also offer a unique range of giant machines:

- Giant bagmaker inserter: automatically inserts bags into pallet containers
- Giant bag decuffer folder: automatically closes the bag

For more information on the Pattyn range of equipment and how we could add value to your operations, please contact Steve Lovell on +44 (0) 7710 156466 or email stevel@flo-mech.com

ZIM-11 Bag Inserter

More than 500 industrial companies worldwide are using a packaging solution of Pattyn Packing Lines.
